

Losar Greeting from His Holiness Chetsang Rinpoche

*Although wars and environmental crises are taking place in many parts of the world,
through love and compassion,
people from different religions and regions can bring peace to our world,
increase stability in our society,
enhance harmony in our family,
and create happiness in our mind.
This is everyone's responsibility.*

It is very important that we try our best to cultivate love and compassion and pray sincerely.

*At the beginning of 2018,
I wish everyone health, happiness and prosperity in this coming year.*

Tashi Delek.
