Date:

This is the statement given by the thanka painters of the main temple's wall.

Inside the main temple we have 3979 square ft walls to be painted .Each square ft it costs 2800/ Nepali Rupees. So for total 3979 square ft cost

$$\underline{3979 \times 2800 = 11141200/NPR}$$

And at the entrance of the main temple we have 1112 square ft wall to be painted. For 1112 square ft it cost

$$\underline{1112 \times 2800 = 3113600/NPR}$$

Grant total for both inside and the entrance of the main temple it cost

$$\underline{11141200 + 3113600 =}$$

$$\underline{\text{grand total} = 14254800/NPR}$$

Drikung Kagyu Rinchen Ling Monastery.
